## KEY FEATURES

### Dual Full HD Resolution

Front & Rear Full HD cameras records outstanding video clarity under any circumstance.

### Auto Night Vision

Automatically turn and enhance video quality brighter at night and clearer at daytime.

### Smart Time Lapse

Automatically compress recording files when there is no impact, and save the files at 30 frames per second when detects any impact. Maximizes memory efficiency comparing to standard recording mode.

### ADAS PLUS

Front Vehicle Motion Alert and Lane Departure Warning System lower the risk of accidents by warning the driver of impending road hazards.

### Wider Viewing Angle

A wide view of 155° angle minimizes blinds spots to assure recording of all events without fail.

### 3.5" IPS Touch LCD

Get an instant video playback, ADAS warnings and change settings on super clear high resolution (800x480) IPS LCD.

### Secret Mode

Protect your important video proof with password, only you can access to dash cam by secret mode.

### Format Free Max

The most advanced format free technology eliminates the need for manual reformatting of memory card, extending memory card life and improving reliability.
