

FINE VU

# AI PROTECTED SHARP

DUAL QHD DASHCAM

## GX1000

- DUAL QHD
- SONY STARVIS Sensor
- Auto Night Vision
- HDR
- AI Damage Detection 2.0
- AI Heat Detection
- Fast Booting
- Built-in GPS & Wi-Fi
- Power Saving Parking Mode
- Smart Time Lapse
- Speed Camera Alert
- FineVu Wi-Fi APP

**WARRANTY** FineVu is renown for its tight quality control. 3-year warranty with full unit replacement.

### Dual QHD Resolution

Dual Quad HD cameras record outstanding video clarity under any circumstances.

### Power Saving Parking Mode

Power Saving Parking Mode provides maximum recording hours even when ignition is off by consuming the least power. Assures safety of both vehicle and its battery.

### AI Features

Featured AI Damage Detection 2.0 and AI Heat Detection allow the least human intervention. Adding value to your comfort, to your ride, start now with Smart AI FineVu.

### SONY STARVIS

SONY Exmor R STARVIS Image sensor provides brighter and clearer image quality compared to general CMOS sensor.

# KEY FEATURES

## Quad HD Resolution

Dual Quad HD cameras record outstanding video clarity under any circumstances.

## Built-in GPS & Wi-Fi

Easily access your video on your smartphone with free FineVu Wi-Fi App.

## Speed Camera Alert

The built-in GPS provides accurate location information while driving, and FineVu GX300 alerts the driver the traffic enforcement cameras and informs speed limit.

## 5X Memory Efficiency (Smart Time Lapse)

Automatically compress recording files when there is no impact, and save the files at 30 frames per second when detects any impact. Maximizes memory efficiency comparing to standard recording mode.

## High Dynamic Range (HDR)

A sudden rise of light exposure caused by strong sunlight or headlight beams may degrade a quality of video footage. HDR controls the level of light exposure to maintain and clear video recordings in all circumstances.

## ADAS PLUS

Front Vehicle Motion Alert (FVMA) and Lane Departure Warning System (LDWS) lower the risk of accidents by warning the driver of impending road hazards

## AI HEAT MONITORING

AI automatically switches to Power Saving Parking Mode if GX1000 overheats. When it cools down, AI will switch it back to parking mode.

## Power Saving Parking Mode

Consuming 98% less power, GX1000 records 2,325 hours more than standard parking mode.

## SONY STARVIS Image sensor

SONY Exmor R STARVIS Image sensor provides brighter and clearer image quality compared to general CMOS sensor.

## Format Free Max

The most advanced format free technology eliminates the need for manual reformatting of memory card, extending memory card life and improving reliability.

## SPECIFICATIONS

Image Sensor	15.1M Pixels SONY STARVIS IMX335 (HDR) / 2560*1440P (Quad HD)	
Resolution	122°	
Viewing angle	3-axis acceleration Sensor	Diagonal
Acceleration Sensor	Built-In	+2g / -2g
GPS	External (Dongle)	
Wi-Fi	FineVu Micro SD Card (32GB ~ 128GB)	
Storage Capacity	Built-In	Class 10 or above, UHS-1 recommended, SDXC compatible
MIC	Built-In	
Speaker	DC 12V-24V	
Input Power	Parking Mode : 5.0W / Power Saving Parking Mode : 0.06W	2CH, GPS OFF / WI-FI OFF
Power Consumption	Operation : -20 °C ~ 70 °C	
Temperature	Storage : -30 °C ~ 80 °C	
Size (WxDxH)	Front : 96.5 x 70.0 x 26.5mm / Rear : 46.8 x 36.5 x 29.2mm	
Weight	Front : 114g / Rear : 23g	
Mobile Application	FineVu Wi-Fi App.	Android, IOS
PC Viewer	FineVu Player 2.0	Windows, MAC
Features	Auto Night Vision, AI Heat Monitoring, AI Damage Detection 2.0, Power Saving Parking Mode, Smart Time Lapse, ADAS PLUS (FVMA&LDWS), Speed Camera Alert, Low Voltage Cut-Off	ADAS and Speed Camera Alert requires GPS reception
