KEY FEATURES

Super Compact Size

Compact size maximizes driver's view.

SONY STARVIS 2 Image Sensor

Upgraded SONY STARVIS 2 SENSOR reduces power consumption by 30% compared to SONY STARVIS 1, providing unimaginably vivid image regardless of day or night.

Quad HD Resolution

Front Quad HD and Rear Full HD cameras record outstanding video clarity under any circumstances.

Speed Camera Alert

The Built-in GPS provides accurate location information while driving, and FineVu GX4K alerts the driver the traffic enforcement cameras and informs speed limit.

Built-in Wi-Fi

Easily access your video on your smartphone with free FineVu Wi-Fi App.

High Dynamic Range(HDR)

A sudden rise of light exposure caused by strong sunlight or headlight beams may degrade a quality of video footage. HDR controls the level of light exposure to maintain and clear video recordings in all circumstances.

5X Memory Efficiency (Smart Time Lapse)

Automatically compress recording files when there is no impact, and save the files at 30 frames per second when detects any impact. Maximizes memory efficiency comparing to standard recording mode.

Format Free Max

The most advanced format free technology eliminates the need for manual reformatting of memory card, extending memory card life and improving reliability.

ADAS PLUS

Front Vehicle Motion Alert(FVMA) lowers the risk of accidents by warning the driver impending road hazards.

Power Saving Parking Mode

Consuming 98% less power, GX35 records 2,325 hours more than standard parking mode.

SPECIFICATIONS

Image Sensor	5.12M Pixels SONY STARVIS 2 IMX675	
Resolution	2560*1440P (Quad HD) / 1920*1080 (Full HD)
